7/25-7/30: Totus Tuus

8/26: Back to School Picnic

9/1: First day of School!

ABOVE: Goodbye 2021 8th graders

It's that time of year again, summer is rolling in once more. That means it's time to say goodbye to our eighth graders. You have all demonstrated your passion for learning, passion for your community, and passion for your school. We have faith in you as you move on to high school in the fall. Congratulations! Enjoy high school, college, and beyond! Your All Saints family will always be here. Our hearts and doors are open! Congratulations!

The mission of All Saints Catholic School is to nurture the HEART as well as the minds of our students through providing High academic standards, making the Eucharist the center of all we do, encouraging Acts of kindness, cultivating Respect for others, and Teaching our children to utilize their knowledge and faith to spread God's love in the world.

Pitch in to help!

I would like to ask for donations to help us purchase a new pitching machine for the girls' softball team. Earlier this year, the boys had a pitching machine donated to them and we are working on wiring and set up over the summer at St. Mary's field location. I would like to ask all families to donate or \$1 to \$5 dollars on Friday to purchase the pitching machine. Please contact Mr. Forbes or Coach Bouchard with any specific questions about the machine. Thanks in advance for your continued blessings and support.

LIVING BY FAITH

Summer gives us more light and, usually, more outdoor time together. Plan a once-a-week outdoor meal without technology and spend time talking about life, faith and family. Begin with a family prayer — one you've written together — and remember that God is also a member of your family! Use a few hours of summer's extra time to bring light and love to others by helping someone in your neighborhood, who is lonely or ill, and needs yard work, gardening or a grocery pickup. Make this the summer one you'll remember! Jesus told us he is the "light of the world" (Jn 8:12) and that by following him we will have the light of life!

From the Principal's Desk

Dear ASCS Families,

Time to Celebrate!

We have been in person all school year, yes that is 175 days!

We have welcomed so many beautiful families from surrounding communities who wanted safe, high quality, in person instruction.

Our new families and new students say they are very happy and will return next school year because ASCS teachers care, and it feels like being part of a wonderful family.

Our students, staff, and families have supported us to keep our school environment clean and safe.

We have successfully held competitive sports including cross-country, robotics, track and field, baseball, and softball

We are thankful and grateful for this year and all its challenges because we got to be together and celebrate our Catholic faith.

Yours in Christ,

Matthew Houghton

Golf Tournament Fund Raiser!

The Knights would like to help with fund raising for the Robotics team and school's technology needs. An option that was presented at our last meeting involves a partnership with our annual Golf Tournament. Our Golf Tournament is a fund raiser for the Maine Seminarans to provide them some necessary funds as the progress through educational years. Last year, the Bangor Knights were able to donate \$4000 to seminarans and \$500 to director of seminarans in the diocese.

We will be holding our annual golf tournament on Saturday, 9/11, at Hermon Meadows. The challenge we are presenting to All Saints Catholic School, is we would like your help building 4 – four person teams (16 golfers) for the tournament. If we are able to achieve this, a local law firm, and member of the Knights of Columbus will provide \$1200 to All Saint's Robotics team.

The director in charge of this event is Matt Madore, but I can be the contact for anything an All Saints family needs. If you would like to move forward with this partnership, could we include an announcement before the end of the school year. Let me know if you have any questions, and your thoughts on this proposal.

Thanks,
EJ Hikel
